## MILES PROPTECH GAS

### Propane Gas Compressor Lubricant

MILES PROPTECH GAS contains premium polyalkylene glycol (PAG) base fluids and is specifically designed for use in propane gas compressor applications. MILES PROPTECH GAS is an ideal lubricant for these natural refrigerants due to its very low pour point, high viscosity index, excellent solubility and superior resistance against viscosity dilution.

#### ATTRIBUTES

- Specifically designed for use in propane gas compressor systems requiring PAG lubricants
- Excellent film strength and anti-wear properties for better protection of compressor parts
- Resists viscosity dilution
- Reduced hygroscopic tendencies
- High viscosity index for better lubrication and seal protection at extreme temperatures
- Thermal and oxidative stability promote longer oil life and extended oil-drain intervals
- Protects against rust, corrosion, carbon and varnish
- High flash and auto-ignition points for added safety
- Non-toxic/non-hazardous

#### TYPICAL PROPERTIES

	PROPTECH	PROPTECH	PROPTECH	PROPTECH
	GAS-46	GAS-68	GAS-100	GAS-150
Lubrication Properties				
Viscosity cSt @ 40°C	45	68	101	222
Viscosity cSt @ 100°C	9.2	13.2	19.0	33.0
Viscosity Index	193	199	211	195
Flash Point °F (°C)	425 (218)	437 (225)	440 (227)	442 (228)
Pour Point °F (°C)	-51 (-46)	-49 (-45)	-47 (-44)	-43 (-42)
Copper Corrosion, 24 Hr	1a	1a	1a	1a
Color	<.5	<.5	<.5	<.5
