

MILES SB BREATECH

Partial-Synthetic Low-Pressure Breathing Air Compressor Lubricant

Designed for low-pressure breathing air compressors, **MILES SB BREATECH** is a high-performance, partial-synthetic compressor lubricant. It provides excellent rust and corrosion control and is thermally and oxidatively stable.

ATTRIBUTES

- Oxidatively stable
- Resists water contamination
- Protects against wear, rust and corrosion
- Good film strength
- Non-toxic/non-hazardous

TYPICAL PROPERTIES

Lubrication Properties	SB BREATECH-100	SB BREATECH-150
Viscosity cSt @ 40°C	103	152
Viscosity cSt @ 100°C	11.8	15.5
Viscosity Index	103	104
Flash Point °F (°C)	440 (227)	488 (253)
Pour Point °F (°C)	-22 (-30)	-12 (-24)
Copper Corrosion, 24 Hr	1a	1a
Demulsibility, 130°F, 30 Min	40/40/0	40/40/0
